India's Flagship Event on Green Buildings

**International Conference & Exhibition on Green Buildings**

**30 Oct - 1 Nov 2012**

**HICC, Hyderabad, India**

**Asia's Largest Green Building Conference & Exhibition**

# Green Building Congress 2012

## Introduction

The construction industry is one of the largest economic activities contributing to India's development. India has been witnessing tremendous growth in building and construction sector for the past 5 years. With the increase in income levels, there are also changes in the life styles of various sections of the society. While this is a healthy trend, it is putting enormous pressure on the resource demand - like energy, water, materials etc., The stakeholders of the industry have a vital role to play in preserving the environment. The Indian Green Building Council (IGBC) was formed in the year 2001 to address many of these aspects.

IGBC is represented by all stakeholders of construction industry comprising of Architects, Builders & Developers, Corporate, Designers, Facility managers, Government, Institutions, Nodal agencies, Product manufacturers & suppliers, Service Consultants, etc.

The vision of the Council is to enable sustainable built-environment for all and facilitate India to be one of the global leaders in sustainable built-environment by 2025.

With a modest beginning of 20,000 sq.ft of green footprint in the country in the year 2001, today over 1,724 green buildings with a footprint of over 1.2 billion sq.ft are being constructed all over India. The Council's activities have enabled a market transformation with regard to green building concepts, materials and technologies. The projected market potential for green building material and technologies is estimated to be 100 billion USD by the year 2012.

To advance green building movement in the country, IGBC is organising India's flagship event on green buildings, Green Building Congress 2012 at HICC, Hyderabad, India.

## Objectives

- Expose the participants to the latest global trends in green buildings
- Exhibit green building products and technologies
- Provide a platform for networking
- Facilitate exploring new business opportunities
- Enable market transformation of green products and equipment

## Event Schedule

Event Title	Dates
International Conference on Green Buildings	30 - 31 Oct 2012
Exhibition on Green Buildings	30 Oct - 1 Nov 2012
Conference on Green Homes	1 Nov 2012
Conference on Green Cities	1 Nov 2012
Green Building Mission(Green Building Tour)	2 Nov 2012
Advanced Training Programme on Green Buildings	2 - 3 Nov 2012

### Advanced Training Programme on Green Building Rating Systems - LEED 2011 for India, 2 & 3 Nov 2012

Shares the best practices on Green Buildings and impart knowledge on Green Building concepts & LEED India New Construction Green Building Rating System.

- Participation from Australia, Canada, China, Finland, France, Germany, Hong Kong, Japan, Malaysia, Nepal, Netherlands, Saudi Arabia, Singapore, Sweden, Switzerland, Srilanka, Thailand, UK, & USA

## Exhibition on Green Building Products & Technologies : 30 Oct - 1 Nov 2012

Over 100 companies from various countries are expected to exhibit their green building products & technologies at the exhibition.

# Green Building Congress 2012

## Who Should Attend

- Architects
- Builders & Developers
- Corporate representatives
- Contractors
- Educational institutions
- Engineers
- Energy modellers
- Electrical consultants
- Green building facilitators
- Government representatives
- Green product / Equipment manufacturers
- HVAC consultants
- Interior designers
- International agencies
- Landscape consultants
- Lighting consultants
- Plumbing consultants
- Project management consultants
- Town planners

## Benefits to Participants

- Awareness on latest trends on green buildings
- Opportunity to network with National and International experts
- Platform to launch new green building products
- Awareness on green building rating systems
- Platform to develop new business opportunities

## Date & Venue

Date : 30 Oct - 1 Nov 2012  
 Venue : Hyderabad International Convention Centre  
 Novotel & HICC Complex  
 Hyderabad - 500 081, India

## Confederation of Indian Industry

Indian Green Building Council  
Greening India since 2001

### About CII

The Confederation of Indian Industry (CII) works to create and sustain an environment conducive to the growth of industry in India, partnering industry and government alike through advisory and consultative processes.

CII is a non-government, not-for-profit, industry led and industry managed organisation, playing a proactive role in India's development process. Founded over 117 years ago, it is India's premier business association, with a direct membership of over 7100 organisations from the private as well as public sectors, including SMEs and MNCs, and an indirect membership of over 90,000 companies from around 250 national and regional sectoral associations.

With 63 offices including 10 Centres of Excellence in India, and 7 overseas offices in Australia, China, France, Singapore, South Africa, UK, and USA, as well as institutional partnerships with 223 counterpart organisations in 90 countries, CII serves as a reference point for Indian industry and the international business community.

CII – Sohrabji Godrej Green Business Centre (CII – Godrej GBC) is one of the 10 Centres of Excellences of the Confederation of Indian Industry (CII).

CII-Sohrabji Godrej Green Business Centre offers advisory services to the industry in the areas of Green buildings, energy efficiency, water management, environmental management, renewable energy, Green business incubation and climate change activities.

The Centre sensitises key stakeholders to embrace Green practices and facilitates market transformation, paving way for India to become one of the global leaders in Green businesses by 2015.

The Centre is housed in a Green Building which received the prestigious LEED (Leadership in Energy and Environmental Design) Platinum Rating in 2003. This was the first Platinum rated Green Building outside of U.S.A and the third in the world. The Centre was inaugurated by H.E Dr A P J Abdul Kalam, the then President of India, on July 14, 2004.

### About Indian Green Building Council (IGBC)

The Indian Green Building Council (IGBC), part of Confederation on Indian Industry (CII) was formed in the year 2001. The vision of the Council is to enable sustainable built-environment for all and facilitate India to be one of the global leaders in sustainable built-environment by 2025.

IGBC is strong with a membership base of more than 1,200 members which is progressively increasing over the years. Members comprise of all stakeholders of the construction industry viz. Architects, Interior Designers, Landscape Consultants, MEP Consultants, Builders, Developers, Product and Equipment Manufacturers, Corporates, Institutions and Government agencies.

The Council has 12 Chapters spread all over the country to cater to the aspirations of various states and regions. These chapters are headed by eminent Architects and Developers.

To seed the ideas of green building concepts in the minds of young people, IGBC has started student chapters in various architectural and engineering colleges.

The council has in the past 10 years facilitated 1,687 Green Buildings in the country with a footprint of 1.19 Billion sq.ft. covering the varied building types viz. commercial, residential, hospitals, airports, retail, factory buildings, townships and SEZs.

The council closely works with several State Governments, Central Government, World Green Building Council, bilateral and multi-lateral agencies in promoting green building concepts.
